Negative Implications of China's Military Activities in East Asia for Maritime Shipping

By Tetsuo Kotani

- Growing concern about China's invasion of Taiwan
- August 2022 blockade exercise: Disruption of shipping, overflight, fishing
- Prior notification of the exercise, Establishment of exclusion zones
- Firing ballistic missiles into foreign EEZs: Lack of "due regards"
- China's double-standard: exercising in foreign EEZs, prohibiting foreign exercises in its EEZs
